2.25 **Number of Claims Opened Per Year**

2.26 Number of Claims Closed During 2021/22

The graphs below show the number of cases closed for public liability and employer’s liability during 2019/20 to 2021/22 together with the outcome. Please note that claims which have been repudiated may be reopened should the claimant challenge the denial or issue proceedings.

2.27 Annual Summary by Insurance Year

The number of claims per insurance year (1 April to 31 March) are set out below for public liability, employers liability and third party motor. This is different to the figures provided above which are the number of claims opened each quarter or year, regardless of which insurance year they apply to, for example a claim may be opened in April 2019, where the incident date is April 2018 and therefore the insurance year for this claim would be 2018/19.

The total incurred figure is the payments made and professional estimates based on the information received from the claimant as at 31 March 2022. This figure will change, for example where outstanding claims with reserves are settled with no payments made or further information is provided by the claimant which results in the estimate being increased.
