Force legitimacy (Stop Search – Ethnicity)

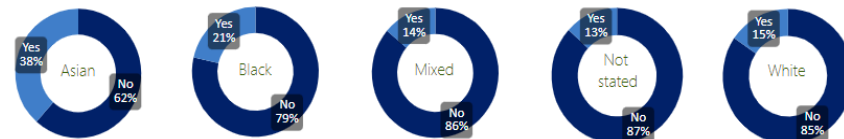

Date Period: 01st November 2019 – 31st October 2022

North Yorkshire is a safe place to live and attracts numerous visitors that enjoy its iconic sights and beautiful landscapes. In addition it attracts those who wish to cause harm. This section looks at the differential between residents and non-resident stop and search information (please note that some stop searches do not contain residential status)

Residents (76.13% of the total where place of residence is recorded)

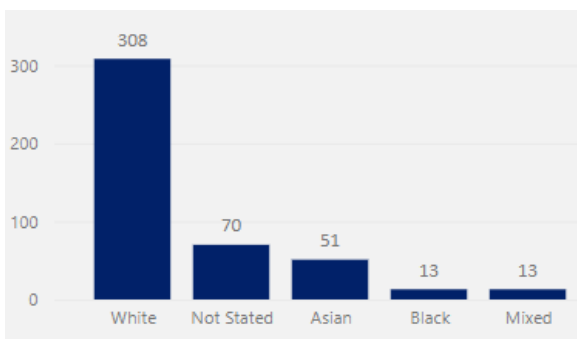

Black, Asian, Mixed ethnicities account for 3.86% of those searches where self-defined ethnicity was recorded. White ethnicity accounts for 86.22%

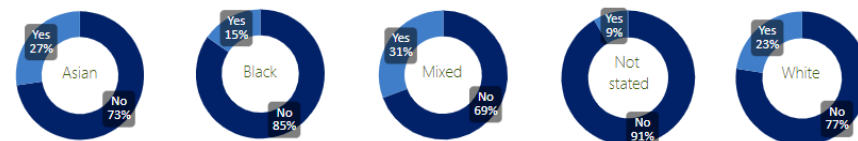

Stop searches where a positive outcome resulted (arrest, caution, penalty notice, summons or warning) ranged from 13.79% (Mixed ethnicity) to 38.46% (Asian ethnicity), and 15.67% (White ethnicity).

Non-residents

Black, Asian, Mixed ethnicities account for 16.92% of those searches where self-defined ethnicity was recorded. White ethnicity accounts for 67.69%

Stop searches where a positive outcome resulted (arrest, caution, penalty notice, summons or warning) ranged from 15.38% (Black ethnicity) to 30.17% (Asian ethnicity), and 22.73% (White ethnicity).

Overall whilst there appears disproportionate stop search numbers based on ethnicity this is mainly reflected in stop search of non-residents. The higher positive outcome rates for non-residents supports the view that this is intelligence led, focussed on those who come into North Yorkshire to cause harm.
